User Manual (Non-Technical)

How to Use the App (via Docker)

1. **Install Docker Desktop** on your machine.

Clone the repository:
git clone https://github.com/amar-at-iitm/End_to_end_AI_application

2. cd End_to_end_AI_application
3. **Run the app using Docker Compose**:
   docker-compose up --build
4. **Open the UI**: Go to `http://localhost:8501` to use the Streamlit interface.

Features on Streamlit UI

- **Prediction**: Enter "**Predict Next 30 Close Price**" to get the next 30 predictions.
- **Feedback**: Choose whether you're satisfied or not. The app sends this to the developer.

Monitoring (Optional)

- Visit `http://localhost:9090` for Prometheus
- Visit `http://localhost:3000` for Grafana dashboards
